

TRIED AND TESTED IN THE TOUGHEST ENVIRONMENTS. INCLUDING THE CLASSROOM.

Maybe you have a class of clean, well behaved little angels? Or maybe not?

Either way, our Activboard is designed to cope. It's just another of the advantages of having our kit designed by teachers. And then tested to the highest degree.

Made with a solid screen, little kids, or big ones, can safely lean on it or rest their hands against it when writing. Dirty or paint smeared hands make no difference to its performance.

Kick it... hit it... throw a coin at it... stick a compass in it... it'll still carry on working.

We even heard of one accidentally moved on a car roof in a downpour - with no ill effect. (Though, please note, comprehensive though our warranties are, this would be excluded!)

It'll also happily cope with temperature changes. So, for example, heat in an uncooled classroom over the long Summer break won't... break it. Even at Uluru (Ayers Rock).

The secret? Sitting behind the screens is our specially designed electromagnetic grid.

It's unaffected by any damage to the screen surface.

And, by crosschecking three separate sets of co-ordinates, it allows incredible accuracy. On-screen tools, such as protractors, for example, can measure down to a single degree.

While our mouse pen writes just like a pen. And, with cursor, rollover, and click functions, acts just like a mouse. Minus, of course, those nasty squeaking noises... from chalk.

ACTIVBOARD.

MARKET LEADING INTERACTIVE WHITEBOARD.

PROMETHEAN
LIGHTING THE FLAME OF LEARNING

COMPLETE WITH

- Two mouse pens** Our unique battery-free, wire-free mouse pen - and a spare.
- Wire-free technology** 'Talks' seamlessly with our other products with no awkward cables.
- Low glare screen** Super high quality projection surface minimises unwanted glare.
- Smooth, swift pen response** Draw and write with no annoying time lag.
- All connection leads & power supply** Facilitates all possible connection options.
- Wall mount brackets** For easy, secure fixing to most walls.
- Handy pen pot** Clips to the Activboard to keep your mouse pens safe and handy.
- Guides** User guide - to get you started. Installation guide - to show you how to fit it.
- Installation service** Prefer not to DIY? Let our dedicated, professional installation team help.
- Warranty** 3 years on-site and 5 year surface warranty to protect your investment.
- Free extras** Online training, upgrades, support, online user forum & resource downloads.

CHOOSE FROM

- Size** 50", 64", 78" & 95" diagonal sizes to meet the needs of today's diverse range of classrooms.
- Stand** Don't want to wall mount your board? Our mobile stand allows it to be shared between rooms.
- Projector** Select from our wide range of options: brightness, throw distance, resolution...
- Software** Choose from either of our award-winning software packages:
 - Activprimary designed for primary schools or
 - Activstudio for secondary education onwards.

AND ADD

- Our Activ range of products are designed to work easily with each other, in a package to suit you...
- Activslate** All the power of the Activboard in your hand. Interact with the Activboard with our A5 wire-free 'mini-board', small enough and tough enough to pass around the class or have one per desk.
- Activote** The most popular hand held voting technology in the UK and Europe. Instant assessment across the whole class - on anything from class registration to understanding how well a lesson is understood... or even predictive grades. With our superior radio wire-free technology.
- Activtablet** Acts just like a small Activboard. The best way to prepare lessons wherever you are, or for drawing, designing or tracing where you need to use a pen.
- Activsupport** A range of professionally recognised training programmes from beginner to postgrad.

TECH SPEC

Digitising technology: Passive electromagnetic. Internal resolution: 2730 points (lines) per inch. Tracking rate: 200 inch per second. Output rate: 120 co-ordinate pairs per second. Connection options: Serial (RS232), USB 1.1/2 or Bluetooth™. Certification: CE, FCC, UL listed. Operating temp: -10°C to +50 °C. Storage temp: -25 °C to +70 °C. Overall dimensions: 48": 1170 x 890mm (46" x 35"), 64": 1351 x 1076mm (53" x 42"), 78": 1700 x 1240mm (67" x 49"), 95": 2244 x 1240mm (88" x 49"). Board weights (packed): 48": 17kg (37.5lb), 64": 22kg (48lb), 78": 26kg (57lb), 95": 32kg (71lb).
