### **New Staff Room and Sixth Form Centre, July 2011**

"Having sourced four suppliers of office and commercial furniture prior to the school summer recess, SOS Group was quick to respond to our requirements and their design team quickly got to work taking measurements, photographs, and fine tuning the items of furniture required to meet our needs.

Their enthusiasm for the work really was apparent right from the word go and this was reflected in the final proposal drawings, which give an isometric colour projection to scale of the existing rooms showing the new furniture in position. Other competitors could only manage a plan view of the new arrangements and were slow to respond with these drawings.

Overall the whole experience with SOS Group was one of 'ownership of the project'. The price was kept within the school budget and nothing was ever too much trouble!".

William Thompson, Estates Manager AIRSM
